Sir:

Applicants express appreciation for the August 17, 2011 and August 22, 2011 telephone interviews between Supervisory Patent Examiner Sreeni Padmanabhan and Examiner Umamaheswari Ramachandran, and Applicants' representative Arnold Turk.

So that the record can be complete as possible, Applicants express agreement with the Interview Summary mailed August 31, 2011 to the extent that Applicants' representative contacted the examiners to discuss that Teng does not teach or suggest Am80, and the examiners indicated that the rejection will be maintained. However, Applicants' representative also noted during the August 17, 2011 interview that the other documents used in the rejection of record do not teach or suggest Am80 so that the rejection is without appropriate basis.

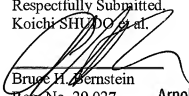

Applicants further note that the Interview Summary references communications between the examiners that were not part of the interviews that Applicants' representative conducted with the examiners, including the discussion between the examiner and the supervisor, and the conference with the supervisors. Accordingly, to ensure that the record is clear, Applicants are

noting that these internal discussions between Patent and Trademark Office personnel are not part of the interviews that Applicants' representative conducted with the examiners.

Authorization is hereby provided to charge any fee required for consideration and/or entry of this paper to Deposit Account No. 19-0089.

Should there be any questions, the undersigned can be contacted at the telephone number indicated below.

Respectfully Submitted,
Koichi SHIMIZU et al.
